Company Name and Address

To whom it may concern:

Currently I am attending University of California, Los Angeles within The Master's Entry Clinical Nursing Program with an expected graduation date of June 14, 2014. I am highly interested in a position at your facility regarding requisition #_____ that will move me into the nursing realm. With this degree I have been able to provide clinical expertise to individuals and families in the dynamics of Pediatric, OB/Maternity, Mental Health, and Adult Medical Surgical nursing care.

I have had the desire to start my career on a medical-surgical unit, to increase my clinical foundation as a new graduate nurse. I have had the pleasure to develop a fall precaution in-service for staff at Kaiser West Los Angeles, with an objective to increase the staff's knowledge on falls by 80%. This project was designed to assess the educational needs and current interventions.

In reference to my previous position at Medtronic, I am able to inform patients on the benefits of continuous subcutaneous insulin infusion therapy vs. multiple daily injections. The purpose of my interest as a registered nurse is because I would like to be able to strengthen my patients care in underserved communities as a public health nurse with an emphasis on sub-clinic and clinical practice.

To insure that I acquire the ethics and the practices that are needed, I have been able to provide legendary skilled- based service in the clinical settings with great recognition. My experience has giving me the opportunity to work in a multifaceted atmosphere alongside, nurses, doctors and directors.

The highlights of my experience are presented within the enclosed resume, which will provide you with further detailed information. Please contact me at 323-337-3695 or email at jenniferw1@ucla.edu

Thank you for your consideration.
Sincerely,

Jennifer C. Williams
